

Driving Age Arguments Analysis

Using what you have learned about arguments and persuasive techniques (pages 982 and 984), analyze the two arguments “Should the Driving Age Be Raised to 18? No!” (pg. 986) and the poster “Support Bill 543” (pg. 987) using a chart (that you construct in Google Docs) like the one below. You should share your document with me no later than Friday, 8 JAN, end of class.

Editorial: “Should the Driving Age Be Raised to 18? No!”	Poster: “Support Bill 543”
Claim: Raising the driving age punishes all young drivers for the mistakes of a few.	Claim: Supporting Bill 543 to raise the driving age will cut down on needless accidents.
