

1. As a group, using your textbook, complete the “Elements of an Argument” diagram.
2. Then, choose one of the issues or statements below and, with your group, construct an argument in favor of that statement. Your argument should contain, at a minimum:
 - A statement of your position.
 - Three statements in support of your position.
 - One counterargument that you refute.

Your group will present and defend your argument. You should use the projector to show what you produce.

Choose one of the following:

- JMS should allow eating in the classroom.
- JMS should not allow eating the classroom.
- Dodgeball is dumb.
- Softball is the best sport for women.
- The open carry law in Texas is a good idea.
- The open carry law in Texas is not a good idea.
